ESBL TOOLKIT

Best Infection Control Practices for Patients with Extended Spectrum Beta Lactamase Enterobacteriaceae – An infection control toolkit developed by the International Infection Control Council (APIC, CHICA-Canada, ICNA (UK, Ireland)).

"Just Wash 'Em" / "Lavez les"

A 7 minute video directed to Elementary School aged children.

Reaching today's kids with our all-important handwashing message is a major step in preventing the spread of infection. CHICA-Canada's very own Sudsy makes his debut in a creative, fun-to-watch handwashing video aimed at school-aged children. Great for school projects, seminars and demonstrations.

The Infection Control Toolkit: Strategies for Pandemics and Disasters

The only disaster planning document that presents information specific to the key issues of infection control. Includes all the tools and materials necessary for surveillance, education, communication, laboratory, and management of personnel and patients are included. Handy forms, references, fact sheets, flowcharts, checklists, and samples provide the framework to interface with healthcare facilities and local public health preparedness plans. No other disaster planning document presents information specific to the key issues of infection control.

ARO VIDEO

A 15 minute educational video covering topics related to AROs (epidemiology, surveillance and control). Produced in cooperation with Wyeth, with assistance from CHICA-Canada members.
